Education

● **UNIVERSITY OF INFORMATION TECHNOLOGY**
  Major: Information Technology
  2025-2026

● **FPT POLYTECHNIC HO CHI MINH**
  Major: Web Design - GPA: 8.2/10
  2019-2023

Technical Skills

- Front-end: HTML5, CSS3, JavaScript(ES6+)
- ReactJS, NextJS
- Back-end: Node.js, Express.js, Laravel
- Database: MySQL, MongoDB
- Tools: Git, GitHub, Postman
- API: RESTful APIs, Postman

Soft Skills

- Communication & Teamwork
- Problem-solving & Critical Thinking
- Self-learning & Adaptability
- Time Management & Responsibility

Language skills

- English: Good reading skills, basic speaking ability

Career Objective

I am a passionate Front-End Developer with a strong interest in building responsive and user-friendly web interfaces. My goal is to become a professional Fullstack Developer by mastering modern technologies across the stack and contributing to real-world web projects. I also enjoy exploring AI-assisted development tools to boost productivity and code quality.

Experience

Alta Software - 5/2023 - 9/2023
Internship

Key responsibilities:

- Developed user interfaces for two internal projects: Ticket Booking System and Queue Management System using HTML, CSS, and JavaScript
- Collaborated with the team to integrate front-end components with back-end APIs
- Learned and applied Laravel authentication logic from a front-end perspective (form handling, error display, validation)
- Used Postman to test API responses for front-end integration
- Managed project code using Git and GitHub (branching, commits, pull requests)
- Reported daily progress and implementation status to the mentor

Projects

Bukin App – Book Rental Web Application
Technicals: React, Tailwind CSS, NodeJs, Appwrite

Description: Bukin App is a web application for managing book rentals. It was built as a graduation project using PHP and MySQL with the MVC pattern.
Key Features:

- User-friendly interface for browsing and renting books
- Admin dashboard for managing books, categories, and rental status
- Search functionality and detailed book information
- Basic authentication and user role management
- Responsive layout using HTML, CSS, and JS

Sneakers E-Commerce - 2023
Technicals: Boostrap 5, JQuery, Laravel 9, MySQL

Description: This is a basic e-commerce website that implements core features of an online store, including product browsing, shopping cart, and order management.
Key features:

- Product listing by category with pagination
- Shopping cart functionality (add/remove/update quantity)
- Order placement with customer information input
- Admin panel to manage products and orders
- Basic authentication and route protection
- Dynamic content rendered using Blade template engine
